STATEMENT

Of the Ownership, Management, Circulation, Etc., Required by the Act of Congress of August 24, 1912, of Torrance Herald, published weekly at Torrance, California, for Oct. 1, 1928.

Before me, a notary public in and for the state and county aforesaid, personally appeared Grover C. Whyte, who, having been duly sworn according to law, deposes and says that he is the business manager of the Torrance Herald and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business manager are: Publishers, the Lomita-Torrance Publishing Company of Torrance, California.

2. That the owners are: Give names and addresses of individual owners, or, if a corporation, give its name and the names and addresses of stockholders owning or holding 1 per cent or more of the total amount of stock.

3. That the known bondholders, mortgagees and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages or other securities are: (If there are none, so state).

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company, but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds or other securities that is so stated by him.

GROVER C. WHYTE, Sworn and subscribed before me this 1st day of October, 1928. (Seal) J. R. JENSEN, Notary Public in and for the County of Los Angeles, State of California. (My commission expires December 19, 1928).

THE LITTLE CACTUS GARDEN

Flower lovers who have difficulty in keeping house plants healthy in fall and winter can turn to Cacti as a solution. The Cactus tribe is so nearly self-sufficient that it might almost be called trouble-proof. Further than this, it includes a hundred or more dwarf varieties of as many different shapes, colors and sizes, the majority of which are sufficiently small to be put in bowls, boxes or pots in the house. Perhaps they can not be called beautiful according to the standards by which most plants are judged, but they have an odd attractiveness all their own.

THE DINING ROOM BUFFET

Contemporary design has invaded the dining room to quite a large extent. Splendid examples of this craftsmanship representative of present day furniture have been shown and are still to be seen at exhibitions of modern furniture in the larger cities. Rare woods ingeniously worked into geometric motifs are an outstanding feature of the pieces of the day. In the above illustration we see a dining room buffet built along lines in keeping with the modernistic movement, and also, a veneer that speaks well for the craftsman's art. A wealth of woods in its disposal and selection—thus, wood, light maple that may be stained dark, walnut, mahogany, palisander. This buffet is simple enough in line as to be easily built by a good carpenter. An amusing note in this close resemblance between the buffet and airplane wings. Hanging right on the wall, just like a hanging bookshelf, this buffet is particularly useful because it provides both closed compartments and plenty of open space.

**78 CARLOADS OF Majestic Radios sold in 107 days**

THINK of it. Nearly three carloads of Majestic All Electric Radio Receivers bought by eager Southern California radio enthusiasts in 107 calendar days. Subtracting the 17 Sundays and holidays from the 107 days between June 6, when the first carload of Majestic Radio was received in Los Angeles, and September 20th, the date this message first appeared, the total of 90 working days makes this great sales record even more amazing. There are reasons for Majestic's unparalleled popularity. Nothing but outstanding performance under even the most difficult of reception conditions could make possible the tremendous sales record that has been established by Southern California's Majestic Radio Dealers.

Never before has a radio of Majestic's built-in quality been manufactured to sell at so astonishingly low a price. This much talked about receiver actually sells for \$200 less than any comparable equipment ever built.

The sensationally low selling price of Majestic All Electric Radio is made possible by the practically unlimited financial resources of its manufacturers... the large production volume in the six great Majestic factories that delivers 3000 Majestic receivers into waiting freight cars every day, and the tremendous savings in manufacturing costs and elimination of waste that are rightly passed along to you in the form of a lower retail price for Majestic than is possible for other equipment made in smaller plants and factories using less modern manufacturing methods. We urge you to see and hear Majestic before you buy any radio... regardless of price. When you see it... when you hear it... you'll know why Majestic leads.
